Certified True HEPA Filtration 99.97% @ .0.3 micron
CFM Evap: 400H/355L
Operating Range 64F-113F
*Not recommended for surgery or
operating rooms.

Introducing the first ever HEPA Kit accessory for a commercial spot cooler to provide HEPA-PURE Technology. The new ClimaTemp HEPA Kit will convert any new 2019 standard CT-12 spot cooler into a HEPA filtering spot cooler. This HEPA Kit accessory is quick and easy to install and will provide certified HEPA filtration at or above 99.97% @ 0.3 micron.

We envision the CT-12 spot cooler with HEPA-PURE Technology to be the future and industry standard as the go to spot cooler product for all hospitals and medical facilities. We are excited in the future possibilities with this new product offering within the specialty industry as the demand and regulation increase for better IAQ products in the overall healthcare industry.
