

# CT-12 Spot Cooler

## Portable Air Conditioner

CT-12 Spot Cooler  
Cooling Capacity: 12,000Btu  
Power: 115V, 12 Amps  
Size (WxDxH) 19"x23"x40.3"  
Weight 136lb  
CFM Evap: 470H/400L  
Operating Range 64F-113F

The ClimaTemp Portables CT-12 spot cooler was specifically designed for cooling any and all commercial applications including heat sensitive computer equipment, networks, servers, office spaces and people. The CT-12 boasts an industry leading operating range from 64F to 113F and 470 cfm evaporator air flow. Additional features include digital LED controller, auto restart, auto shut off condensate bucket with audible alarm, plug n play condensate pump option and diagnostic codes for easy troubleshooting.

For easy maintenance and quick turnaround, the CT-12 features QuickMove evaporator and condenser filters for effortless cleaning, decorative designed condenser cover overlay to protect coils and heavy-duty locking castors for effortless movement. All of these features were designed specifically for the rental industry and specialty markets to maximize profitability while minimizing costs.
